This directory has been created by BCDHA to assist members and others in connecting with one another. For instance, a dental hygiene practitioner might be interested in hiring a consultant to help with a practice start-up or would like to have the assistance of a mentor regarding clinical practice. This directory hopes to connect those with experience, education, and specific skills with those who are interested in learning from others. If you are interested in being listed in this directory, please contact info@bcdha.com

Note: Practitioners listed in this directory have not been vetted by BCDHA staff, and BCDHA does not endorse any individual or service. If a BCDHA member is interested in the services of those listed in this directory, they are reminded to do their due diligence before hiring or committing to an individual or company.
