

Complimentary Webinar Series Human Papilloma Virus (HPV) and Head & Neck Cancer Our Critical Role & Responsibility

Wednesday, March 24, 2021 - 7:00-8:00 pm

Wednesday, April 21, 2021 - 7:00-8:00 pm

Wednesday, May 19, 2021 - 7:00-8:00 pm

*Did you know that the proportion of oropharyngeal cancers has risen sharply in Canada, with oral HPV infection cited as a risk factor? **Nearly 75% of all oropharyngeal cancers are HPV-related.** These engaging virtual learning opportunities can be viewed individually or watch all 3 to strengthen your knowledge. You will learn what the medical community has learned about the HPV infection, why this information is essential to dental hygiene practice, and what we can implement immediately.*

The Objectives of the 3 Webinars:

Understanding the sense of urgency and elevating awareness through education and risk prevention strategies will make an impact on the dramatic rise in HPV-related oropharyngeal cancers. This 3-part series will address the direct knowledge translation into clinical practice for the dental hygienist.
